wpDataTables

First of all, thank you for purchasing wpDataTables 2.2! **You are awesome!**

wpDataTables 2.2 is a Charts and Tables manager plugin. In order to always keep documentation up-to-date, **we provide documentation online only on this link**. You will find thorough explanation of all the product's features, with demos, examples and video tutorials.

If you are looking for support you are **welcome on our support system here.**

Here are some useful links to get you started:

- **Creating tables manually** from WP-Admin;
- **Creating tables from MySQL queries**;
- **Creating tables by linking Excel files**;
- **Creating tables by linking Google Spreadsheets**;
- **Tables with editable content**;
- **Creating charts**.

These are just several - but you will find a lot more if you browse our documentation site.

We hope you will enjoy using our plugin!
