DUTIES

PA Technician

Provide focused attention to platform microphone needs

- Set up microphones and do sound check at least 15 minutes prior to service
- Focus on speaker so he/she has your attention to get mic on or adjust to unexpected changes
- Mute mic to avoid loud pops when plugging in/out to protect speakers & ears – a MUST!
- Maintain fresh batteries to avoid interruption of services
- Work with musicians to do sound checks/practice between services
- Do not attempt to be the Recording Technician when you are the PA Technician
-

Broadcast Technician

- Stream sessions to conference YouTube channel.
- Monitor quality of broadcast and problem solve any issues.
- Record only unprotected material -- music numbers are generally considered copyrighted and should not be recorded in order to avoid payment of royalties or expensive fines
-
