## Let's Move Day

The 3-8 class will be heading off campus to do some *moving* on "Let's Move Day." Students, please bring a sack lunch that can be eaten at the park, wear comfortable but modest clothing (including completely enclosed shoes), a helmet (for safety and insurance reasons) and a bicycle. The \$6 is for a little trip to Yum's froyo after the *moving*. We will take the students home after that since we will miss dismissal time back at the school. The students should be home between 4:30 and 5 pm. If you haven't filled out a "Let's Move With a Mission" slip of paper yet, please do so. The pledge amount can be any amount— God blesses even pennies!

## Ice Building

Willie Hale has agreed to head up another ice block building project. This means it's time to start saving your cartons again. They can be cartons of pretty much any size. It would make things more pleasant and easy for the Hales if you would rinse the containers well and if it's one like the one in the picture, open the top (i.e. unseal the glued part all the way across the top).

## New Computer

Our tech angel returned again a couple of weeks ago with a brand new Chromebook for the school. Some of the other computers have been

running quite slowly, and one of our best computers crashed, so he took that one and fixed it. His coming and his gift were perfectly timed.

Claudia & Tesla Nastase of Nastase Honey Farms came and shared some great information about bees on Wednesday. The students got to see an empty tray and then a tray with honeycomb on it. Then we got to scoop into some honeycomb for a tasty treat! Mrs. Nastase gave each student and staff member a complimentary jar of honey. If you are interested in purchasing local honey, you may contact them at 701.348.3283 or [nastasehoneyfarm@gmail.com](mailto:nastasehoneyfarm@gmail.com).
