7th Day Adventist Local - Installation

About The System

The 7th Day Adventist Information System is a screen driven Microsoft Access 2007 system helping the local community centers maintain information that not-for-profit entities are required to keep for reporting purposes.

Its main features, such as entering data and producing reports, were developed using Microsoft Access 2007 resulting in a fully featured database allowing for the maintenance of large amounts of data with various methods of accessing and displaying said data.

Installation Options

There are two ways to install the application software:

1. Using an installation CD - this method will install all features required for using the application but requires the use of a installation CD and requires the installation PC to have a CD or DVD installed or attached via a USB cord.
2. Download - after downloading the software from the designated download site and saving the downloaded file your local disk, double click the downloaded software to begin installation.

Installation Process

Please follow these instructions to install 7thDayACC on your PC:

1. Download the latest installation package from the 7thDayAcc website and save it to your computer.
 - a. Double click the downloaded file and follow the directions.

Or

2. Insert the installation CD in your CD drive and follow the directions give by the installation software.
3. Run ACC_Local_InfoSystem once the installation is finished.

Once started both of the above options will function the same.

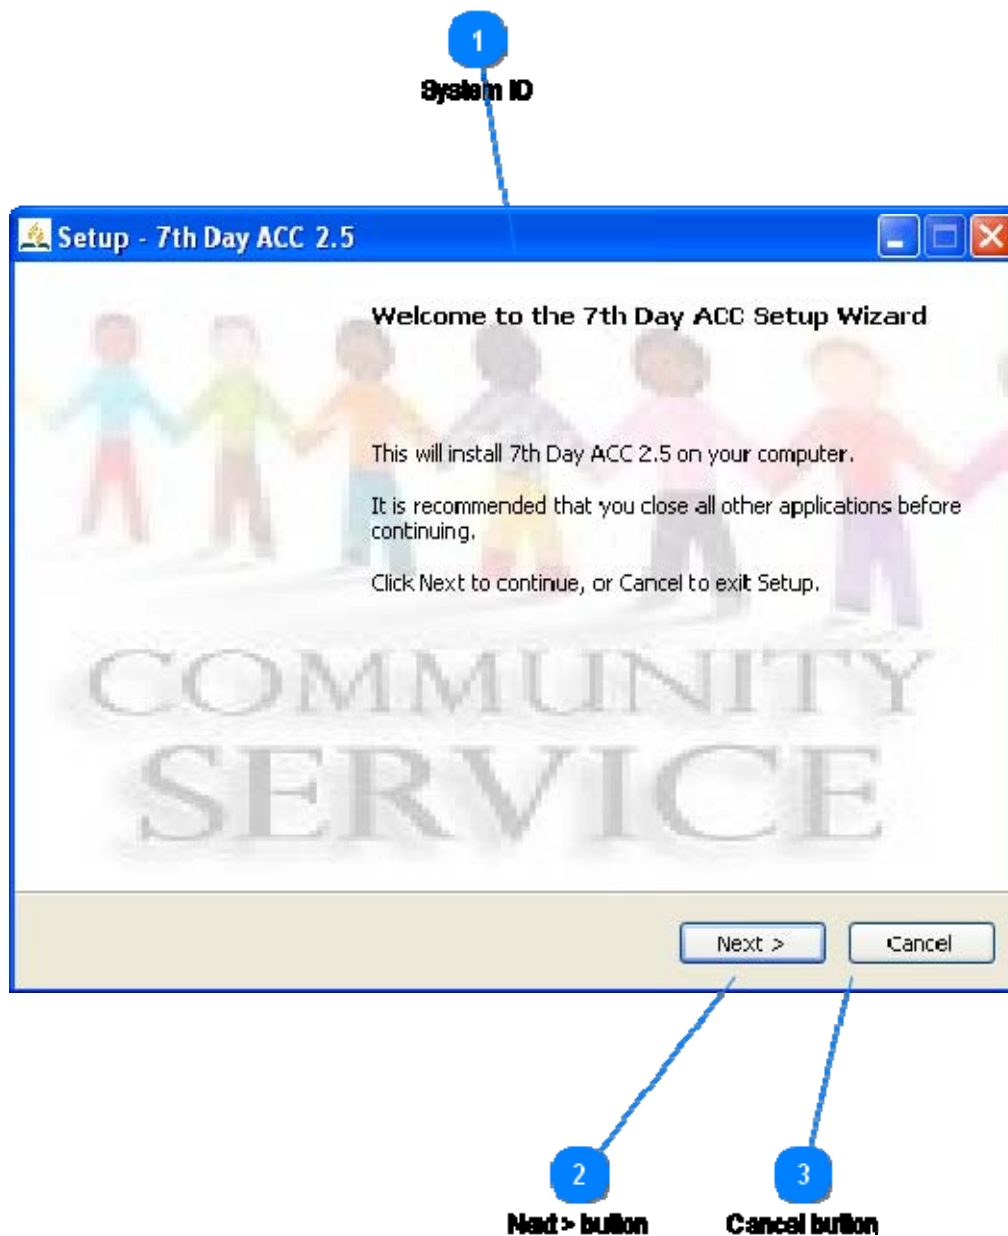

Regardless of the installation method used the user simply has to follow the directions in the installation process. Once the installation process has completed the 7th Day Adventist software will be installed and ready to use.

One of the processes of the install is the installation of the Microsoft Access Runtime module. This is the last item process and will require a response. If the option "I agree" is not checked then the software will not run and the Runtime module will not be installed.

By default, the 7thDayAcc system is installed to **C:\WCS\Adventist Community Center\Local\Application.**

Note: On Windows 7 you might be required to run the **setup.exe** as the Administrator.

Setup - 7th Day ACC 2.5 Installation window

This is the first screen that will appear after beginning the installation process.

1 System ID

2 **Next > button**
