

Discoveryland News

December showed up with festive lights, a gleam of excitement in its eyes and joy and love wrapped up with bows and ribbon. What is it about December that brings out such feelings in us? I know I walk around with gusto during the month of December. I think it is the fact that we are all in love with giving! I am not going to leave out getting as well. Let's be honest, we all love to get surprises from one another. And especially kids. They know what the holidays are all about. We also get the opportunity to share with them other aspects such as giving to the less fortunate. And I believe this year there are a lot of people less fortunate than us. Take the time to reach out to a local organization that provides services to the needy and see if you and your family can make a difference in the lives of someone else this year. Here at school, we also share the love of God and how He came down to live among us and share the gospel with us. Showing us what the true meaning of life is.

And as we go through this month, I hope you and your family will continue the tradition of giving and sharing. We view you sending your children to us as the greatest gift. We are able to continue being here for the community, our staff and teachers because of you. I will still be saying Thanks often because you play an important part of our existence and for that, I am grateful. So may December give you as many feels as it does me. Enjoy the ones who are in your life and remember they are the gift that keeps on giving.

Please remember we have a half day on December 20. This is also our Winter Program day. We will send out more information through your child's homeroom newsletter. We look forward to some time together during the program and after. In addition, this is the beginning of our Christmas/New year break until January 6. Have a wonderful holiday season and New Year.

*With much love and
Christmas cheer,
Ms. Penny Corpus, Director*
