TEACHER RESPONSIBILITIES FOR 5TH GRADE OUTDOOR EDUCATION
(For Principals/Teachers Only)

1. Scheduling Camp Store Visits:

Teachers are responsible for planning and coordinating the time their students visit the Camp Store. Please ensure this is done to avoid overlap with other instructional activities.

2. Active Participation During Instruction:

Teachers are expected to be fully involved during all instructional times and activities. To maintain a focused and productive learning environment, it's essential to minimize distractions. Teachers becoming preoccupied with side conversations or personal tasks can detract from the student's experience and the program's effectiveness. We ask that all teachers be mindful of this and prioritize engagement with the students and the curriculum.

3. Engagement and Enthusiasm:

Teachers should actively engage in all activities, demonstrating enthusiasm as if experiencing them for the first time. Your interest and involvement are crucial to motivating and inspiring the students.

4. Handling Personal Communication:

If you need to take a phone call or send a text, please step out of the instructional area and keep the communication brief. Your prompt return will ensure you remain engaged with the students and activities.

5. Role in Supervision and Support:

The teacher's primary role during the camp is supervising student behavior and acting as a "teacher's aide" to the Camp Staff. Your presence and assistance will help ensure a safe and productive environment for all participants.
