

There is grace and healing in the compassionate ministry of Jesus Christ.

For over a century, Seventh-day Adventists have extended Christ's love to friends, neighbors, and communities—sharing the joy of service and the blessing of giving through His example.

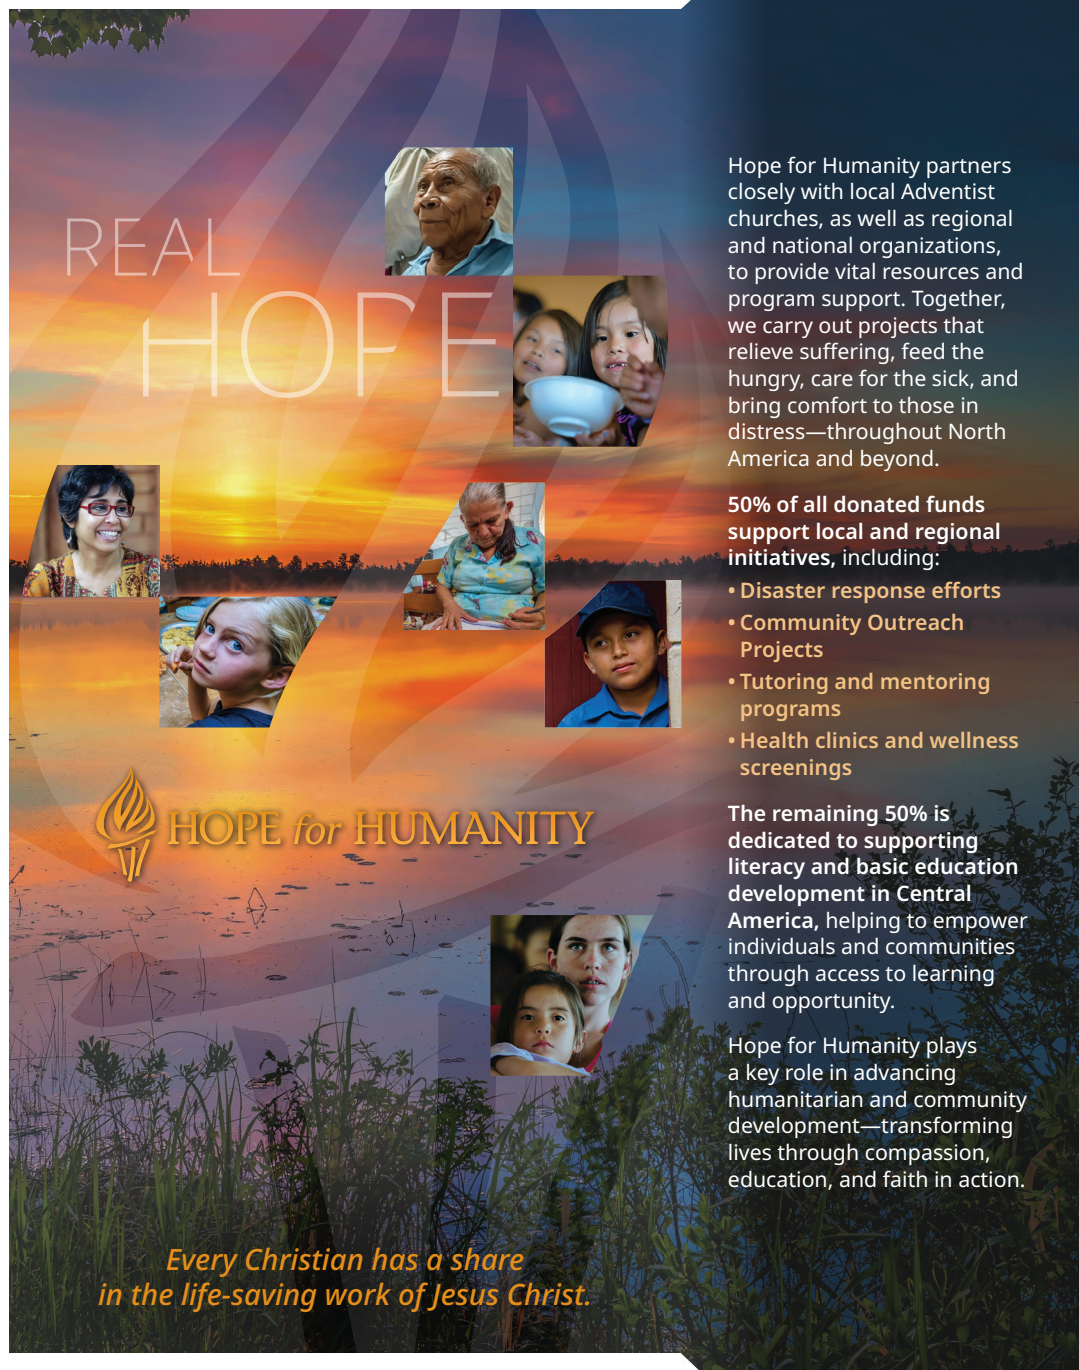

You can be part of this life-changing humanitarian ministry through your time, your prayers, and your financial support.

Every dollar donated to the annual **Hope for Humanity** appeal goes directly to fund vital programs and projects. None of your contributions are used for administrative, management, or promotional expenses—those costs are covered by separate funding sources.

Your generosity helps extend Christ's healing touch to a world in need.

REAL
HOPE

 HOPE for HUMANITY

Hope for Humanity partners closely with local Adventist churches, as well as regional and national organizations, to provide vital resources and program support. Together, we carry out projects that relieve suffering, feed the hungry, care for the sick, and bring comfort to those in distress—throughout North America and beyond.

50% of all donated funds support local and regional initiatives, including:

- Disaster response efforts
- Community Outreach Projects
- Tutoring and mentoring programs
- Health clinics and wellness screenings

The remaining 50% is dedicated to supporting literacy and basic education development in Central America, helping to empower individuals and communities through access to learning and opportunity.

Hope for Humanity plays a key role in advancing humanitarian and community development—transforming lives through compassion, education, and faith in action.

*Every Christian has a share
in the life-saving work of Jesus Christ.*
