## Poll Worker Presidential Election 2024

Thank you, Ms. Greta for the pictures.

As many of you know we travel southwest Mexico to Jalisco state every year to visit my husband family, and knowing my Lord you church family know teacher Isabel will bring a lesson plan and materials to share the love of Jesus with children in the family, this year I taught the story about Noah and the special mission God gave him to continue life after he destroyed the World because the tremendous sin on this earth, he fulfilled his mission as he followed God's instructions to build an ark for 120 years and preached to people as they work about the coming flood. How difficult could be to preach of flood when people never saw rain, but when the birds' flock from every kind went in the ark, and a pair of every kind of animal came and got in the ark, of course very important to remember 7 pair of clean animals went in, how Noah and his family went in and the door was close by God, they waited inside for a week before the flood came how people laugh of them and criticize them, but right on time the fountain of water open in the sky and ground, how people started shouting to Noah because salvation was inside the ark. It might be stinky inside with animals, people, their food and waste, but the grace and protection of God was there, we might have problems in daily life or church family but God has promised to protect us and will takes us to where he is when he comes back, let's be faithful in taking and preaching about His love wherever we go and are, love you church family, teacher Isabel Contreras.

<sup>11</sup> Not that I am speaking of being in need, for I have learned in whatever situation I am to be content. <sup>12</sup> I know how to be brought low, and I know how to abound. In any and every circumstance, I have learned the secret of facing plenty and hunger, abundance and need. <sup>13</sup> I can do all things through him who strengthens me.
